

Pricing Changes Effective – 30th March 2020

To our Valued Customers,

Kirby will have a general catalogue price update effective on the 30th of March 2020.

Whilst the price change is part of our annualised catalogue price update, we have worked to minimise the impact on a number of products that have recently had specific price changes within our system.

We encourage customers to access your updated 'Net' and 'List' pricing via Kirby smart@ccess and/or make contact with your sales representative to get the details on the changes as they are available.

All customers can gain access to our smart@ccess portal by registering through www.kirbyhvacr.com.au or making contact with your local representative.

It is important to note that Kirby proactively reviews prices and publishes pricing changes via our website; <http://www.kirbyhvacr.com.au/en-nz/newsroom/price-notifications>.

Kind regards,

Brett Hedge
National Sales & Marketing Manager
