TOOLS FOR WORLDSKILLS

Heatcraft Australia together with CPS Products and Teng Tools is pleased to donate a variety of tools valued at \$5,000 to WorldSkills Australia. The tools will be used by National Refrigeration 2014 Winner Beau Kupris as he represents Australia at the 43rd WorldSkills Competition in São Paulo, Brazil on 11-16 August.

Beau is one of 25 WorldSkills Skillaroos that will attend the WorldSkills Competition. The competition takes place every two years and is the biggest vocational education and skills showcase in the world. In 2015, 59 countries with over 1,200 competitors will compete in 50 skill categories.

When asked how he has been preparing for the event, Beau commented,

“I’ve been doing extra training at Granville TAFE, with Michael McHugh and Brian Mobbs overseeing my work. Whilst the nerves are starting, I’m very excited to be competing. Representing Australia just by doing my everyday job is going to be amazing.”

Beau was thrilled to collect the donation from Heatcraft Vice President, Tom Overs.

“Most of the tools I have been using are dated. I can’t wait to get them back to the TAFE and start using them”.

Heatcraft Australia thanks CPS Products and Teng Tools for their generous contributions.
