

NSW DIVISION EVENT

Rethinking Refrigerants for a Sustainable Future

Australia enters its fourth refrigerant phasedown period in January 2026 – a pivotal moment under the Kigali Amendment. With a 19% reduction in allowable HFC imports, the industry faces rising costs and reduced availability of high-GWP refrigerants.

JOIN US FOR A SEMINAR THAT WILL EXPLORE:

- Regulatory drivers and compliance risks
- Market trends and ESG strategies influencing refrigerant choices
- Engineering considerations for low-GWP, efficient, safe systems
- Design and serviceability challenges in future-proofing technologies
- Policy alignment and incentive opportunities

EVENT FORMAT (Moderator: Mark Vender)

- Welcome (5 mins)
- Introduction (5 mins)
- Panel Discussion with Moderator (50 mins)
  - Questions to panel
  - Audience Q&A

EVENT SPEAKERS:

- Bruce Precious, Six Capitals Consulting (GBCA)
