Inaba Price Notification - Effective 1 June 2026

Dear Valued Customer,

We wish to advise you of an upcoming price adjustment affecting Inaba ducting and fittings.

Inaba ducting and fittings prices will increase by approximately 10% – 15% effective 1 June 2026 due to ongoing overseas conflict impacts on global supply chains, rising crude oil prices, and increased raw material, freight, and logistics costs. Despite supplier efforts to minimise cost pressures through efficiencies and cost controls, sustained increases in petrochemical feedstocks and manufacturing expenses have made the adjustment necessary.

We understand that price adjustments can be challenging and assure you this decision has been made only after careful consideration. Our priority remains delivering reliable products and services at competitive market rates while continuing to support our customers with the highest level of service.

Customers can access updated pricing via smart@ccess or contact their local Kirby representative for further information.

Thank you for your continued support and understanding.

Kind regards,

Louie Delinicolis
Category Manager – Parts/Refrigerant
